Broadcast Media Technology Certificate

www.rcc.mass.edu

This exciting certificate program is designed to introduce the basic core skills needed for students who wish to begin a career in Broadcast Radio or Television and not pursue a degree track. In addition to learning the latest in digital editing technology, students will use state-of-the-art equipment and develop, produce, and direct a short video project. Other techniques taught include synchronization, audio mixing, lighting, Electronic News Gathering and Electronic Field Production.

For information about this program, call the Division of Math, Science and Technology, room 401, Academic Building or call 617-541-5393, or 617-541-5317.
