Boston, MA 02127

The primary responsibility of the YPF is effective course delivery and student safety. The YPF will be working with a variety of programs throughout their contract. These instructors will become familiar with the custom designed youth contract courses, Boston Public Schools programs as well as the Environmental Connection (EC) program. The YPF is responsible for knowledge of the EC curriculum and student management. YPF instruct either solo or with an assistant or co-lead instructor. In addition to the primary course objective, students learn to trust each other, make independent decisions and accept responsibility for their actions. Instructors encourage students to find their individual strengths, learn self-reliance and develop compassion for their fellow students.
